LEASE RUNNING FROM THE LEASE.

At 11 o'clock, when this is written, Blair's Hall is crowded with the Stockholders of the North Carolina Railroad Company discussing the lease. The President of the Road, Major Smith, is proclaiming that he is opposed to the lease.

Some of the Directors who voted for the lease are also declaring that they are opposed to it. The lease is generally condemned by the Stockholders. The President and the Directors are generally condemned for their secret lease of the Road before they had consulted with the owners of the property.

The condemnation of the lease is so general, and the friends of the lease so weak, that we may say even before the meeting convenes that the lease will not carry, it will be a failure as it should be.

VAGARIES OF COLLEGE LIFE—"BOYS WILL BE BOYS."

Many of the good people of Chapel Hill were at Hillsboro' Court, last week, from whom we gathered may little incidents in relation to the Hill, Mr. Pool's College, and other matters that may be of interest to some of our readers, as showing how they do things under the new dispensation.

When Wilson Swain, a colored servant of the College, (who works very cheap) went in, one morning recently, to make a fire in Professor Martlin's room, he found some obstruction in the stove which prevented the wood going in. Looking in, he perceived a good portion of the Professor's library packed away in the stove; the work of some of the fun loving students of that flourishing institution.

Professor Martlin "gin a treat," in the shape of a 'possum supper, one night last week, and asked "the boys" to help him eat it; but the boys not fancying 'possum, or not liking the host, refused to attend. A short time after Prof. Patrick gave a supper, invited "the boys," and they all went. There is said to be considerable feeling there among the boys in regard to "carpet-baggers." On the walls at Prof. Martlin's recitation room, some sensatiin wag of a student has written, "don't kill, boys, don't kill him!"

The boys ought not to act so; Prof. Martlin is as much entitled to respect as Prof. Patrick, or his cousin, Tom Settle, the bridge builder. After the students had refused to break bread with Martlin, the Northern Professor, the Company of U. S. soldiers arrived at Chapel Hill, and were marched to the old East building; whereupon, nine of the boys were seen with their trunks marching out, protesting against the indignity of having troops quartered on them. President Pool had his hands full in trying to reconcile the boys to the encroachments of the troops; regretted their coming, and declared it was not by his desire they were sent there. The troops were finally removed to other quarters, and "quiet reigned in Warsaw."

The citizens of the Hill and the U. S. soldiers are said to be getting on finely.—They harmonize much better than the citizens and the Governor's Colonel, Guthrie and his sneaking detective, Huskey. We heard a citizen of the place say, they would be glad to have the garrison increased by a few more companies, as they are, generally, jolly good fellows, and give something like life to the place.

When Prof. Martlin gives another 'possum supper, we hope the boys will go and help him eat it, and then, perhaps, all difficulties in the way will be removed, and the army, which President Pool didn't want, may be withdrawn. Evans may then have some confidence in the Governor's next telegram, to "pay no attention to rumors," and that "no troops have been ordered to Orange."

We hope the boys will remain perfectly quiet, henceforth; quit putting Prof. Martlin's books in the stove; stop ringing the College bell at dead hours of the night, and cease thumping acorns at the Faculty, and above all cease now, henceforth and forever, from the perpetration of such conundrums as the following, which were picked out of the sweepings of the dormitories, recently:

"Which one of the Federal Cavalry Generals is most needed just now in Chapel Hill? Ans. Kill-Patrick."

"What would most promote the health of Chapel Hill? Ans. The getting rid of that low, stagnant Pool."

"What tradesman is least needed now at Chapel Hill? Ans. The Brewer."

Such conundrums as these won't do, boys, and if you compose any more such, and we get hold of them, we'll publish them, as sure as you're students at Chapel Hill, just to let your "school masters" see how you employ your time.

That was a curious raid the New Orleans police made on Wednesday last. They arrested about 100 bakers and seized 8 500 loaves of bread. This exhausted the bread market, and the local papers call it the battle of the *light weights* for the championship. The police came out ahead, the bakers being fined from $25 to $50 each, and their bread being confiscated.

LARCENY IN ORANGE.

Tom Carr, Primus Paul and Davy Tapp, all freedmen and members of the League, cultivated the lands of Mrs. Elizabeth Faucett, a widow lady of Orange.

Primus was the owner of a hog, which came up missing one morning, and he suspicioned Tom Carr as having something to do with its disappearance. The case got into Court and came up for hearing last week. Primus gave in his testimony to the Court and Jury, somewhat after this fashion. "It was night as I went to Tom's house; as I got dar de dog, he pitched at me, and I heard a great noise in de house like pitching over chears and stools. Bime-by de door was opened and I went in; Tom handed me a cheer and den set down hisself on a big goods box. Fust thing I knowed Tom was hid in a great fog of smoke and steam, and I axed him, says I, Tom, says I, is you steamin yourself? and Tom said, yes, he had a bad cold, and was gwine to bathe his feet. Then I thought sump'n; I thought my hog was in dat box, and dat dey was scaldin him when I come in."

The next day, Primus went on to state, he got out a search warrant against Tom's premises, and sure enough, they found the hog under Tom's floor, very badly cleaned. As Primus said, "Tom had sot so long on de box dat de har got sot and would'nt come off." It is unnecessary to say that upon the evidence, the Jury brought in a verdict of "guilty" against Tom.

After twice setting aside the verdict against Dennis Hanes; for Larceny, as we have before noticed, the Judge concluded not to set aside the verdict in this case but sentenced Tom to four months hard labor in the penitentiary, but as there is no penitentiary, Tom will lie in jail and Primus will have to pay a tax to help feed him.—It would have been better for Primus and for all other tax payers of the county, to have given Tom nine and thirty lashes and turned him loose with the understanding that he would get a repetition of the dose whenever he steals another hog. Tom might not have liked this so well, but we do not see the reason of making laws with special reference to the wishes of negroes.

SENTENCE OF CITIZENS OF TEXAS BY MILITARY COMMISSION.—The Washington correspondent of the New York *Tribune* says:

"The findings of the military commission, which has been in session for some months past at Jefferson, Texas, trying citizens who took part in the riots there at the time of the inauguration of the Metropolitan police, is made public. George Gray, Oscar Gray and Ludwig P. Alford were found guilty of murder in the first degree, and sentenced to imprisonment during their natural lives. John A. Richardson, Mathew D. Taylor and Charles S. Pitcher, were each sentenced to four years imprisonment. The Commanding General approves the findings, and orders the execution of the sentence by confinement in the Huntsville Penitentiary. In the cases of citizens Richard P. Crump, Mark H. Joslin, William A. Hightower and Horatio N. Geer, after an examination of the evidence, the district commander is unable to approve of the findings, which acquits these persons of all complicity in the offenses with which they were charged."

A PRODIGY IN MATHEMATICS.—H. Glass informs us that he recently found at Fayetteville, (Fayette?) Mo., a young man by the name of Fields, seventeen years old, and entirely ignorant of letters or figures, who could, inside of three minutes, solve any problem given. The following are a few of the examples, and the time taken in the solution: The number of flaxseed necessary to reach to the sun, allowing six flaxseed to one grain of wheat, and thirteen grains of wheat to the inch. Answer, 469,497,600,000,000, given in two minutes. What would $3 000 amount to in ten years, compounding interest at 10 per cent? This example he worked in three minutes, absolutely correct, although he had to carry a score of decimal fractions. What would a horse bring (there being 32 nails in his shoes) allowing 3 cents for the first, 6 for the second, 9, 27, 81 and so on? This required 32 distinct multiplications, and ran up into trillions, yet he did it in three minutes. These examples will suffice to show his wonderful power. He is very ignorant on all other matters; never learned his letters and does not know one figure from another. He is very uncouth in his appearance, and has no faith in his fellows. He can do anything in mental arithmetic even in complex fractions.—*Macon Journal*

NITRO GLYCERINE AGAINST HELL GATE.—That terror to all sailors in New York harbor, Hell Gate, must be smashed according to contract before the expiration of December. The contractor is using nitroglycerine to blast the obstruction. An account says:

"The glycerine is placed in tin cans, which are connected with an electric battery through small wires of copper and zinc, attached to fuses 21½ feet in length.—Fifty pounds of the explosive material are placed in each can. The can is then deposited in a boat, which is carefully rowed to a given spot. The can is then lowered with the utmost caution, and fastened upon a section of rock. On Saturday eighteen of these cans were placed in position upon the Hog's Back, but owing to some unexplained reasons failed to answer the electric current, and did not explode. When it does burst there will be a young earthquake.

A LITTLE HEROINE.—At Pugwash, Canada, a few nights ago, the house of a family named Crowly having taken fire, all the inmates except three small children had escaped, but these were sleeping up stairs, and the fire below made it impossible to reach them. Finally, the mother's screams from without awakened the eldest, a daughter not twelve years old, who came to a window and was urged by her mother to throw herself out, but she answered, "No; my brother and sister must be saved." She then returned through the heat and smoke twice, and, after throwing the two younger children from the window, she let herself drop to the ground, a distance of sixteen feet, and when she rose said, "I'm done, mother, but I have saved my brother and sister from being burnt up." The mother and children then walked six hundred and seventy yards naked (for none of the clothing had been saved) to the nearest neighbor's house, where the little heroine, terribly burnt, shocked with the fall, and chilled with the exposure, died early on the next morning.

Mr. Peabody, it is stated, twenty five years ago offered his hand, heart and fortune to an American lady then visiting London. They were accepted. Subsequently Mr. Peabody learned that the lady was already engaged when she accepted the new suitor, and rebuking her lack of sincerity, he summarily broke the contract.

MEETING OF THE STOCKHOLDERS OF THE NORTH CAROLINA RAILROAD.

The Stockholders of the above named Road assembled at the Senate Chamber.

Before the meeting was regularly organized, Mr. J. U. Kirkland, of Orange, proposed to have an informal meeting of the private Stockholders, to consider whether or not they should go into the proposed meeting.

Mr Badger, State proxy, objected, on the ground that it would amount to a preliminary meeting wherein the affairs of the Road would be discussed, and the State had a right to be represented in such meetings, she having the largest amount of interest to guard.

After some discussion Mr. Kirkland's proposition was rejected.

The meeting was then regularly organized by calling Giles Mebane, Esq., to the chair, S. H. Wiley and F. A. Stagg, were appointed Secretaries.

The following communication from President Smith, was read by the Secretary:

To the Stockholders of the North Carolina Railroad:

GENTLEMEN—On the 15th of October last, the President of the R. & G. R. R. Co. made a proposition to the Directors of your Company to lease your Road for twenty years, proposing to pay, annually, $240 000 for the same, the payment of which to be secured by depositing that amount, in securities equal to cash, in some safe Bank in the city of Raleigh. Also to give like security to secure your Company against any loss or depreciation of your Road and its property. Also binding themselves to return to your Company your Road and rolling stock in as good condition as when received by them.

The proposition was accepted on the part of your Directors, and this meeting was called for its ratification or rejection. Some have said and complained that the time was too short for the consideration of so grave a subject. I therefore respectfully recommend that the consideration of the subject be postponed until your annual meeting, or to some day to be named by your honorable body.

The following letter addressed to President Smith, by A. K. McClure, of Penn., was next read:

RALEIGH, Nov. 10, 1869.

Maj. W. A. Smith, President of the North Carolina Railroad:

SIR—I propose to lease the N. C. R. R. for myself and associates, on the basis of the lease, to be voted on this day, with the R. & G. R. R. Co., with the following modifications:

I will pay as an annual rental for said N. C. R. R. $265,000, payable quarterly—the payments to be secured by satisfactory collaterals, and satisfactory security to be given for the rolling stock, &c., of the Company.

I respectfully refer to Henry Clews & Co., Bankers, 32 Wall Street, New York, and to Col. Thos. A. Scott, of the Penn. R. R. Co., as to the ability of myself and associates to comply with the conditions of this proposal.

Respectfully yours,
A. K. McCLURE.

Mr. R. C. Badger, was then announced as the Governor's appointee as State Proxy. Mr. Badger arose and said: That when the appointment was tendered to him, on the 19th of last month, he accepted it with the distinct understanding that neither he (Mr. Badger) or the Governor were to express an opinion as to how the vote of the State was to be cast in this matter. That he (Mr. B) was to come into this meeting, listen to the arguments *pro* and *con*, and then report to the Governor and receive his instructions how to vote so as to secure the best interests of the State.

The recommendation of President Smith to postpone, was next discussed.

Gov. Graham, said in substance that while he was opposed to any lease whatsoever, yet he favored the proposition to postpone the question until the time specified. He did not believe that the N. C. Rail Road under its charter could legally make the lease or the R. & G. R. R Co. could take it. He thought such a procedure upon the part of those Companies would render them liable to a forfeiture of their charters. Here Gov. Graham cited various authorities and instances in support of his position in this matter. He concluded his remarks by a strong and eloquent argument against the policy of forming combinations to build up cities and ports of other States to the detriment of those in our own State.

Gov. Graham's speech was searching and close in reasoning and effective and eloquent in delivery. He was listened to attentively by all present, and his arguments seemed to have made a deep impression upon his hearers. We regret that our limited space prevents us from giving the entire speech.

Mr. Merrimon said that no question was properly before the meeting, and in order to bring the matter which they had met to discuss, squarely be before them, he moved to approve the action of the Board of Directors of the N. C., Railroad Co., in accepting the propositions of the R. & G. Railroad, to lease.

Mr. P. C. Cameron, said as he understood it, the question was upon the adoption of the President's report.

Mr. Gorrell, said the report was nothing more than a recommendation to pursue a certain course, therefore, he moved to postpone the consideration of the matter until the second Thursday in July, 1870 the annual meeting of the Stockholders.

Mr. Merrimon, thought his motion had precedence.

The Chairman, said that the motion of Mr. Gorrell would open the whole matter for discussion.

Mr. Merrimon then proceeded upon a long argument in favor of approving the action of the Directors of the N. C. Railroad Co., in accepting the proposition to lease.

Mr. Sutherlin, said that as Mr. Merrimon had spoken rather harshly of Mr. McClure, who was now present, he (Mr. Sutherlin) had been introduced to Mr. McClure by parties of the highest respectability and had reliable evidence that that gentleman was what he represented himself to be. He asked in behalf of Mr. McClure permission for him (McClure) to make some remarks in defence of himself.

Consent being given, Mr. McClure, said he came without a single letter of introduction, but he had given references to proper parties, which could not be doubted. He had never received a single letter or notification of this meeting. If the matter had been advertised, stating when and in what manner propositions were to be made, he would have complied with the directions.

After mentioning that it was in his power to convince any reasonable man of his standing and ability to fill the conditions of his proposition, he concluded by saying that the gentleman who preceded him (Mr. Merrimon,) was wrong in his statement in regard to the North Carolina Railroad, realizing six per cent, from the lease, that his (McClure's) proposition ($265,000) would not pay six per cent, as the debt of the Company would have to be paid.

Gov. Graham said that he had not heard a word of Mr. Merrimon's argument that showed any power, under their charters, for one to make, or the other to take the lease, to perfect such a transaction, the approbation of the General Assembly must be obtained.

Mr. Graham then cited from various chapters of Rentfield, and from the charters of both Roads in proof of his arguments. He argued that neither corporation could throw off in this manner, the responsibilities which they assumed when they accepted their charters. In alluding to Mr. McClure's proposition he said, that Mr. McC. proposed to give $265,000 and renew his deposits as often as the other party would, and if they were going into market, he was in favor of going to the highest bidder. In concluding Mr. Graham said that since he had been upon the stage of action the commercial towns of this State had greatly improved; he knew that Norfolk had great natural advantages, but he would not, so far as his vote in this corporation was concerned, strip our own towns of a single particle of their prosperity.

After some further discussion, on motion of Mr Badger the meeting adjourned for one hour.

AFTERNOON SESSION.

The meeting was again called to order.

Mr. W. A. Caldwell took the floor and argued for some time against the lease.

Gen. Barringer said he was opposed to the present lease, though he differed with Gov. Graham in regard to the companies, power to lease. He was opposed to the present lease for many reasons, but there might arise circumstances from the condition of things, which might cause him to favor some such arrangement. He had years ago expressed his distrust of the prosperity of a company where the interest of the private Stockholders and State come in conflict.

Mr. B. then proceeded to state some of his objections to the lease, in an argument of some length.

The question recurred upon the motion to postpone the matter until the next annual meeting.

The vote being taken, it was carried.

On motion of Mr. Badger the vote was reconsidered.

Mr. Badger called for a stock vote upon the question of postponing. Some objection being raised, a spirited discussion ensued.

Mr. Badger said the reason he asked for a stock vote was that he was instructed by the Governor to vote down all propositions to postpone and then to vote against the lease. After a somewhat lengthy debate, Mr. E. F. Caldwell moved the indefinite postponement of the whole matter.

Mr. Badger said if that should be taken as equivalent to direct rejection of the lease, he would vote for the motion.

The vote being taken, the motion was adopted.

On motion, Mr. McClure was allowed to withdraw his proposition.

Mr. Gorrell offered a resolution appointing Gov. Graham, Gen. Barringer and Mr Welker, a committee on the part of the individual Stockholders, to memorialize the approaching Legislature to take such action as would tend towards placing the Road under the control of the private Stockholders, the State taking proper steps to guard her interest.

The resolution was adopted without debate.

On motion the meeting then adjourned.

CAPTAIN HIGGINS AND THE HORNET—THAT PIOUS PRESBYTERIAN.

We have the secret at last of the seizure of the Cuban steamer Hornet at Wilmington. The story is from the Captain's own lips as told to our Washington correspondent, and may, therefore, be relied upon. It demolishes the suspicions that the Hornet was taken into Wilmington with any view to treachery, and shows that the reasons why she did not get safely to sea was owing to the religious scruples of a pious Presbyterian whose conscience would not allow him to sell coal on Sunday. Captain Higgins states that upon reaching Montauk Point from Halifax his coal was nearly exhausted, only six days' stock being left, but having found means to communicate with the shore he obtained a schooner load of one hundred and sixty tons of a miserable article, half of which was slate. It seems that the parties who furnished it did not examine the quality of the article, but took it at a venture. The chief engineer reported that it would be impossible to pursue the voyage under these circumstances, whereupon Captain Higgins, expecting to meet a Spanish man-of-war, and knowing that he could neither fight nor make a good run away, hailed a pilot off Cape Fear, who took the ship into Wilmington, where, he said, there was plenty of coal to be had. And so there was; but as it happened to be Sunday morning when the officers sent to negotiate for the coal reached Wilmington, the pious Presbyterian who owned it refused to sell or deliver until Monday. Meantime the United States authorities got wind of the fact that the suspicious Cuban privateer was lying at Smithville, thirty miles below the city, and proceeding there at once, they seized her, as is known.

The grief of the Hornet was that she did not run into some British port. She would have found no coal venders there two pious to sell a few hundred tons on Sunday.—The crust of Puritan conscience would have been broken by the certainty of a good profit. So it may turn out after all that it is not so much to the delay of President Grant or the timidity of Secretary Fish the failure of the Cuban cause may be attributed—if it should fail for want of a naval vessel on the high seas—as to the unelastic conscience of an old, pious North Carolina Presbyterian coal dealer. Thus is the romance of the Hornet's cruise reduced to a very prosy fact, from all which we infer that "pious Presbyterians" are sometimes in the way.

Captain Higgins indignantly denies any intent of abandoning the enterprise when he put in to Wilmington; for, he says, "I would have been made admiral of the Cuban navy, and my officers would have had many pickings in the way of prize money had they succeeded." The Commodore declares that he will try it again, provided he is furnished with a better steamer than the Hornet; for she is only "fit for a blockade runner." We hope the next time the Commodore runs out of coal it will not be on Sunday, or that he will sail into Boston to buy his stock. And this is the story of the Cuban man-of-war Hornet and the pious Presbyterian.—*N. Y. Herald.*

A specimen of the wonderful plant, "the flower of the Holy Ghost," has been successfully raised in Norwich, Ct. The flower is a creamy white cup, nearly as large as half an egg, and extremely beautiful, and its wonder as a natural floral growth, is the fact that in this flower is a little, pure white dove, with pink bill and eyes, and its head turned as if looking over its back. Its wings, feet, bill, &c., are as absolutely perfect as those of the living dove, whose counterpart this wonderful mimic vegetable bird is.

DIED OF GLANDERS.—A man named Gardener, died yesterday at the residence of Mr. Harden Rucker, of a well developed case of glanders. It is supposed he contracted the disease from some horse.—*Lynchburg Republican.*

The keeper of a peanut stand in Washington recently died, leaving his daughter who still carries on the business, $60,000.

NOTICE TO DELINQUENTS.—There are a number of our subscribers in arrears for subscription, who have been notified by the red cross, but have not responded. We again give the warning and if not noticed shall be under the necessity, however unpleasant, of erasing their names from the books. Every thing is cash, now-a-days, and no publisher can get along with a large number of unpaid subscriptions on his books. We hope our reasons will be appreciated by those affected by this notice.

BENEFIT TO MISS ALEXANDER.—This talented young lady, a native of our own State, highly connected, of untarnished name, who being thrown upon her own resources for a livelihood by the misfortunes of the times, has chosen the stage as offering the fairest prospects of success in winning that independence the avenues to which, to females, are so narrow and so few. She has for some time been preparing for her chosen profession, and has appeared with success in many leading characters in the large cities of the North. She now pays a transient visit to her native State, in company with a first class troupe of actors and actresses, and her friends and admirers propose to give her a benefit as a mark of respect and admiration, and we hope it will be done handsomely.

We are glad to know that she has met with a warm welcome from many of our first citizens, since her arrival in our city, having been called upon by many ladies, some of them her former schoolmates or acquaintances.

Let the house be crowded to-night to greet her in the character of Lady Linden, in the new Drama of *Blow for Blow*.

For the cast of characters, see announcement in our advertising columns.

CORRECTION.—We made a mistake yesterday in stating that the note of Mr. Hutchings related to the title of lots on the Cotton property, advertised to be sold on Saturday next—there has been no question in regard to those lots. The note related to the sale of lots in the new town of Kingsland, near the Rock Quarry. Mr. Hutching's note sets the matter at rest in regard to these, as may be seen by reference to it in the our yesterday's issue.

DAMPIER AGAIN OPERATING.—On Monday night last Mr. Dempsey Sorrell of this county had his mare stolen, and on Tuesday night Mr. Solomon King, residing in the same neighborhood, lost a horse from his stable. Suspicion pointed to the notorious horse thief, Eli Dampier, as the person who had taken them, and Mr. Sydney Bryant of this city, aided and accompanied by Mr. Tennoffski and others, went in pursuit. Both the animals were recovered, but the thief Dampier, escaped in the darkness of the night.

On yesterday, the matter, we learn, was brought before Justices Adams and Harrison of this city, who, upon proper affidavits, issued a writ of outlawry against Eli Dampier, whose acts have rendered him notorious throughout this and adjoining counties.

THE HORSE FAIR.—We learn there are a number of persons from a distance expected to visit the Horse Fair here on the 17th and 18th inst. Everything has been arranged to render the occasion pleasant to visitors to the grounds.

DELEGATES TO THE WILMINGTON FAIR.—We learn that Hon. R. W. Best, of Raleigh, Dr. E. A. Crudup, of Franklin, and Gen. G. W. Lewis, of Edgecombe, have been appointed delegates from the N. C. Agricultural Society to the Fair of the Cape Fear Agricultural Association, which is to be held in Wilmington next week.

THE WEATHER.—For fear Wes. might neglect it, we will so far infringe on his prerogative as to state that we had snow again yesterday—none to hurt, however.

There was a large crowd of visitors in the city yesterday in attendance on the Stockholders meeting, the larger number of whom left by last night's trains. We give the proceedings of the meeting in another place, but have no room for comments.

TO-MORROW MORNING.—As usual, to-morrow (Saturday) morning, Ben. Kirkham will have at his old stand, near the new Market House, a fine and choice variety of meats, beef, mutton, shoat and sausage. Those who want a good Sunday Breakfast and Dinner can get the very thing by calling on Kirkham, prices always moderate.

It Astounds Everybody That A Colorless, cloudless fluid, like Spring water, should revive the original tint in white, gray or grizzled hair. Yet so it is. PHALON'S VITALIA OR SALVATION FOR THE HAIR is just such a fluid, as limpid and as stainless,—yet it far excels every other dye or coloring liquid ever known, in imparting rich shades of color to grey hair.

ON ACCOUNT of the great number of wonderful CURES of *obstinate* and *inveterate* cases of SCROFULA, DYSPEPSIA, LIVER DISEASE, KIDNEY AFFECTIONS, GENERAL BAD HEALTH, &c., made by the *celebrated* "KOSKOO," it has won the *enviable reputation* of being the *best* and *most popular* medicine *ever discovered*. It is daily prescribed by physicians and recommended by many thousands of our best citizens. For sale by Druggists and Merchants everywhere.

Ladies suffering from any disease peculiar to their sex, can be restored to health by using DR. LAWRENCE'S "WOMAN'S FRIEND." It purifies the secretions, and restores the system to a healthy condition.

THE MASON & HAMLIN ORGAN CO.—In the course of less than twenty years this Company have grown from a very small beginning, to be the most celebrated and extensive makers of instruments of the Organ and Melodeon kind in the world, producing and finding demand for several times as many instruments as any other makers. Four large elephant tusks must be cut up every week to supply them with ivory for keys; so they must be said to consume two large elephants per week. Their Organs rank highest, not only in this country, but also in Europe, where the demand for them is rapidly increasing.

This remarkable success is undoubtedly owing greatly to their superior skill in this specialty and to the very important improvements they have effected in this class of instruments; but it is the result, almost in equal measure, perhaps of adherence to, and energetic pursuit of certain principles. Inflexible rules with them are (1) to do the *very best work only*, availing themselves of every improvement, and being careful to suffer no inferior instrument to leave their factory; and (2) to sell always at smallest remunerative profits, having fixed prices which are alike to all.

Any one buying an Organ made by this Company has the satisfaction of knowing that he has one the of the best instruments of the class which can be made, and this at the lowest price at which such work can be afforded.

SALE OF CITY LOTS.—Our readers are requested to keep in mind the sale of city lots on Saturday, as advertised in our columns. As something has been said in regard to the title to this property, the following note is published, which will set the matter right on that point:

OFFICE OF N. C. LAND COMPANY,
Raleigh, November 10, 1869.

MR. EDITOR:—Please publish the following letter to remove all doubts and fears of those about to purchase homes in the New Town of Kingsland, as regards title:

RALEIGH, N. C., Nov. 9, 1869.

In order to quiet any apprehension which some persons may have, as to my claiming a Homestead on the property recently purchased by the North Carolina Land Company, from J. P. H. Russ, I can inform the public, that my petition for a Homestead does not embrace any part of said land, purchased by said Company, nor is it my intention to claim any part thereof as a Homestead exemption.

BEES WAX.—We publish the following Circular of Alex. S. McRae, Anglo-American Produce Broker, Liverpool, England, not only to show the extent an value of the Bees wax trade, but as containing curious items of information that will be new and interesting to many readers:

American apiarists are perhaps not generally aware of the enormous consumption of the above article in Europe, and the preeminent value of the United States' supply. Independently of the very large yield of Mineral and Vegetable Waxes, England alone must consume some 2000 *tons a year*, to the value of, say, $2,100,000! Its worth is assessed by colour, purity, and melting point, and the latter process readily exposes adulteration or foreign matter. To day's quotations, taking gold at 131, are as follows, viz.:—

American, bright pressed yellow	45 to 51	cts per lb
American rough mixed yellow	43 to 43½	" "
West Indian yellow	41½ to 43½	" "
East Indian "	41½ to 43½	" "
African "	36½ to 41½	" "

As an instance of the consumption, it may be mentioned that one European palace alone is said to burn ten thousand wax candles *nightly!* The method of lighting them is ingenious. The respective apartments being prepared with the candles, an inflammable and scented web like link (gun cotton) runs from wick to wick. Immediately one end of the link is lit, the flame flashes round the connected wax lights with lightning rapidity, and in a moment they are all simultaneously inflamed! As the link burns and ignites each candle, an agreeable odour is emitted, and the apartments at once, from one end to the other, are thus not only illuminated, but perfectly refreshed and perfumed, as if by magic!

THE MASON & HAMLIN ORGAN CO.

WINNERS OF THE

PARIS EXPOSITION MEDAL,

WHO HAVE UNIFORMLY BEEN AWARDED

HIGHEST HONORS

At Industrial Exhibitions in this COUNTRY,

SO that their work is the **acknowledged standard of excellence** in its department, respectfully announce that, with extended and perfected facilities, and by the exclusive use of recent improvements, they are now producing **yet more perfect organs than ever before**, in great variety as to style and price, adapted to all public and private uses; for Drawing Rooms, Libraries, Music Rooms, Concert Halls, Lodges, Churches, Schools, &c., in plain and elegant cases, all of which they are enabled by their unequaled facilities for manufacture to sell at prices of inferior work.

The recent improvements in these Organs have so increased their usefulness and popularity that they are unquestionably the most desirable instruments obtainable for family use, as well as Churches, Schools, &c., while the prices at which they can be afforded ($50 to $1000 each) adapt them to the means and requirements of all classes. They are equally adapted to secular and sacred music, are elegant as furniture, occupy little space, are not liable to get out of order, (not requiring tuning once where a pianoforte is tuned twenty times), are very durable, and easy to learn to play upon.

The M. & H. Organ Co., are now selling FOUR OCTAVE ORGANS for $50 each; FIVE OCTAVE ORGANS FIVE STOPS, with two sets of VIBRATORS for $125, and other styles at proportionate rates.

For testimony to the superiority of their Organs, the Mason & Hamlin Organ Co respectfully refer to the musical profession generally; a majority of the most prominent musicians in the country, with many of eminence in Europe, having given public testimony that the Mason & Hamlin Organs excel all others.

A circular containing this testimony in full will be sent free to any one desiring it, also a descriptive circular, containing full particulars respecting these instruments, with correct drawings of the different styles and the lowest prices, which are fixed and invariable. Address,

The Steamer Lillian rounded Cuba, going East on the Southside without attempting to land the men. She went to Nassau on the 16th, flying Cuban colors, short of coal, having landed the hundred and fifty men near Nassau with two days rations. The Lillian attempted to coal next day a few miles at sea but the coal boat was seized by the English Gunboat Starling, which fired into the Lillian. DR. LAWRENCE'S

Highly Concentrated Compound

FLUID EXTRACT OF

Koskoo!

THE GREAT HEALTH RESTORER!

NOT A SECRET QUACK MEDICINE—FORMULA AROUND THE BOTTLE.

Prepared Solely by

J. J. LAWRENCE, M. D.

ORGANIC CHEMIST,

NORFOLK, VIRGINIA.

☞ Beware of Counterfeits. See that Dr. J. J. Lawrence, Chemist, Norfolk, Va., and the word KOSKOO, is BLOWN ON THE GLASS of each bottle. ☜

Koskoo is endorsed by the best physicians everywhere. Read the following from Dr. Tillery, a successful practitioner of many years standing in the Old North State:

Rocky Mount, Edgecombe Co., Sept. 16, 1869.

DR. J. J LAWRENCE—Dear Sir: I have used your Concentrated Fluid Extract of Koskoo in my practice with the *happiest results*. I find it to be a *powerful Liver Invigorator Blood Purifier* and *Nervous Tonic*. In all diseases of the Liver, Scrofulous Syphilitic, Nervous Affections, *it is a remedy of immense value*; in fact, in almost every variety of Chronic Disease its use is indicated. Hoping you may meet with the success which you deserve as a manufacturer of reliable medicines, I am, sir, with much respect, your obedient servant,

R. C. TILLERY, M. D.

From Dr. Fentress, an accomplished and experienced physician.

Princess Anne Court House, Va Sept. 13, 1869.

J. J. LAWRENCE M. D.—Dear Sir: I have carefully examined the formula, as well as the Therapeutic properties of your Koskoo compound, and *have prescribed it* in some *stubborn* cases of *Chronic Liver Affections Dyspepsia, General Debility, &c., and always with the most gratifying results*. I fin it to be a splendid *Tonic Alterative, and Hepatic* combination, accomplishing its constitutional effects *without the slightest debility*; in fact *it gives fine support to the General system* while its alternative effects are being produced. *I cheerfully recommend its use to the public.* Yours, truly;

T. F. FENTRESS, M D.

Koskoo cures Scrofula in its worst forms. From Mr. A. W. Mills, a prominent and well-known merchant of Norfolk, Va.:

No 11, Main St., Norfolk, Va., Sept. 15, 1869.

DR. LAWRENCE—Dear Sir: Your Koskoo has worked wonders in my family. My daughter has been a sufferer from Scrofula since childhood. She lost thirty-one pieces of bone from her ankle, several from her arm, besides having ulcers in several parts of the body. Whilst in this condition she commenced taking your Koskoo. IT ACTED LIKE A CHARM ON HER—UNDER ITS USE THE ULCERS GRADUALLY HEALED, AND HER GENERAL HEALTH GREATLY IMPROVED. It certainly saved her much suffering, and perhaps her life. I regard Koskoo a SPECIFIC for all scrofulous affections. Your Koskoo also cured my wife of dyspepsia, from which she suffered greatly. SHE IS NOW IN BETTER HEALTH THAN SHE HAS BEEN IN FIVE YEARS.

With the highest *regards*, I am gratefully yours, &c., A. W. MILLS.

KOSKOO, THE GREAT INVIGORATOR.—Read the following from the Rev. Joseph E. Martin, pastor of Wesley Chapel, Portsmouth Va.:

"This is to certify that myself and wife have used Dr. Lawrence's Koskoo, and can testify to its beneficial effects. Previous to taking it we were in a condition of debility—had no appetite, and suffered from sudden and often violent attacks of headache and nervousness. Two bottles of Koskoo has improved our general health, and we regard it as invaluable, and most cheerfully recommend it to all who have need of an *invigorator*. Yours, &c.,

JOSEPH E. MARTIN.

KOSKOO!

CURES CHRONIC RHEUMATISM.

Norfolk, Virginia, September 7, 1869.

DR J. J. LAWRENCE—Dear Sir: My son has received so much benefit from your wonderful Koskoo that I cannot refrain from expressing my gratitude. I had tried almost everything without benefit. I believe, in all sincerity, that your Koskoo is AN INVALUABLE REMEDY for the disease from which he has suffered, and, so far as I can learn, has never failed. If you only know the immense amount of suffering that he has undergone, then you could conceive the value of such a remedy as Koskoo—THAT SURELY CURES. The great amount of good it is now doing among us is inestimable.

With much gratitude, I am respectfully yours, &c., MRS M. E. A. NELSON.

DR. LAWRENCE—Dear Sir: Having been treated by several skilful physicians for Dyspepsia, Chronic Disease of Kidneys, General Debility, &c., without benefit, as a last resort I commenced the use of your Koskoo, and am pleased to say that under its use my health has been entirely restored

I am, sir, with much respect your obedient servant, O. B MEARS.

No. 5 Market St., Norfolk, Va., July 6, 1869.

Pacific, Franklin Co., N. C., Sept. 11, 1869.

This is to certify that for a long time I suffered very much from inaction of the liver and constipation of the bowels and tried several remedies, but received no benefit until I commenced taking Koskoo. I took the medicine about one month, and I was completely cured and have remained well. I know of several *cures* made by Koskoo, and can cordially recommend it as a good medicine. JOHN H. BAKER.

From Mr. Womble, a prominent hardware merchant of Norfolk:

No 13 Market Square, Norfolk, Va., Oct. 28, 1869

DR. LAWRENCE.—Dear Sir: To the large number of testimonials which you offer of the great efficacy of your Koskoo, I take pleasure in adding my own. I suffered greatly with Nervous Debility, Headache, Loss of Appetite, &c. Two bottles of KOSKOO RESTORED ME TO HEALTH.

Yours, truly, J. G WOMBLE.

From Rev. W H. Christian, Pastor Dinwiddie Street Methodist Church:

PORTSMOUTH, Va., October 25, 1869.

This is to certify that I know Dr. Lawrence well. He is a gentleman of cultivation, and worthy the fullest confidence. I have used his "Koskoo" with advantage to myself, and have adopted its use in my family in cases of nervous debility and depression. W. H. CRISTIAN.

THE UTLEY

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes; and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in expaining its merits.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16.54
EQUITABLE,	17.44
NORTH AMERICA,	21.16
BROOKLYN,	21.09
UNIVERSAL,	27.24
JOHN HANCOCK,	18.27
THE NATIONAL,	63.48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 289 policies, received an income of seventy-eight thousand dollars, and possessed 203 assets amounting up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,237 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
